Goals:

1. **Theory of Mind:** Assessing others feelings, intentions, and ideas and adapting your behavior accordingly.
2. **Gray-Area Thinking:** Grading opinions and thoughts on a continuum rather than using extremes (i.e. "It's the most awesome," "I hate that", "it's the worst game", "I'm never doing that")
3. **Supporting Opinions and Reasons:** Telling others why something is important to us or why we have a certain opinion.
4. **Flexibility:** Changing and adapting our plans and ideas to accommodate or compromise in a group.
5. **Self-Help Skills:** Going to a restaurant or social ceremony and following social constructs and routines, managing small amounts of money, making orders and requests when necessary.
